PROFILE SUMMARY

Full Stack Developer with over three years of experience building responsive web applications and RESTful APIs using React.js, Next.js, JavaScript/TypeScript, Node.js, Express.js, and MongoDB. Proven expertise in optimizing performance through code splitting, lazy loading, and query tuning, and leading UI/UX enhancements that boosted user engagement. Collaborative team player adept at working with cross-functional teams to deliver high-quality, scalable software solutions.

WORK EXPERIENCE

Notzero Technology Limited — 2023 - 2025

Full Stack Developer

- Built and maintained responsive web applications using React.js, Redux, HTML5, CSS3, and JavaScript (ES6+).
- Designed and implemented RESTful and GraphQL APIs with Python and Node.js (Express.js), integrating third-party web services and leveraging MongoDB to support scalable backend logic.
- Collaborated with cross-functional teams (design, QA, product) to ship features on schedule.
- Optimized application performance through code splitting, lazy loading, and tuning database queries in MongoDB and SQL databases.
- Led UI/UX improvements resulting in measurably improved user engagement across key products.
- Conducted code reviews, debugging sessions, and performance tuning across the codebase.
- Deployed containerized applications using Docker on AWS to streamline development workflows and improve scalability.

PROJECTS

Full-Stack Real Estate Platform

- React.js · Node.js · MongoDB · Cloudinary · Tailwind CSS
- Built a property listing platform featuring advanced search and filtering, user authentication, saved listings, and an admin dashboard for property management; implemented RESTful APIs with Express.js and MongoDB
- Integrated Cloudinary for scalable image uploads and transformations, optimizing media delivery and user experience

BabaVee Studio - Agency Website

- Next.js · Tailwind CSS · Framer Motion
- Full agency portfolio site featuring animated UI components, scroll-triggered interactions, bento-grid service layouts, and a custom BV monogram brand identity.

Track Progress - SaaS Landing Page

- React.js · Framer Motion · Tailwind CSS
- Modern, conversion-focused landing page for a project-tracking SaaS product, with smooth animation sequences, feature highlights, and a responsive layout.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Bootstrap, Tailwind CSS, Redux
Backend: Node.js, Express.js, MongoDB, REST API Design, Python, SQL Databases, Web Services Integration, API Development, GraphQL
Tools: Git, GitHub, VS Code, Postman, Figma, Docker, AWS **Design**:
Adobe Photoshop, Figma, Canva

EDUCATION & CERTIFICATIONS

Software Engineering — 2025

SQI College of ICT

NYSC (National Youth Service Corps) — 2024 - 2025

Federal Government of Nigeria

B.Sc., Computer Science — 2023

Sokoto State University
